## CALL TO ACTION

### SUPPORT SIDDHARTH IN TERM 3

#### Did you know?

The top causes of CO2 Emissions in City of Canning are:

**Electricity**

**Gas**

**Transport**

**Waste**

We can all do our bit to reduce our Carbon Footprint.

I'm Siddharth and I want to help people reduce their carbon footprint.

English is not my first language and I'm not as comfortable with English as my mother tongue. I wanted information that my community could understand. I want to make inclusive information about climate change for all cultures. So far we have the funding for this postcard to be translated into Mandarin and Punjabi.
